Space — Hospitality Worlds (demo data)

All 22 States as set up in the prototype: the demo property, country, card colour, mantra, description, the three experiences of block 1, scent introduction, perfume-oil retail point and the Property Circle items. Properties, countries and content are placeholders until Jardin du Désert confirms the real properties; the State numbers and names stay the same.

Card colour: each card is a gradient of three tones of one hue (light → main → dark). The main tone is the one to quote.
